

CUSTOM MADE FOLDING ROLL CONTAINER

Custom Made Folding Roll Container has an impressive 500 kg capacity, and it can be stored by simply folding the base and side panel when not in use for increased storage space and transportation.

1. Time and labor cost saving for transportations.
2. Good foldability for easy storage and saving space.
3. Maximum 500KG load capacity.
4. The coating paint maintains the durability and appearance of the Folding Roll Container providing rust-prevention and weathering performance.
5. Can install different type of 6 inch rubber casters to ensure smooth and noiseless moving.
6. Commonly used in Logistics, Transportation industries, Supermarkets, Storeroom, Department store, Restaurants, Hotels, Hospitals, Airport etc.
